

CARL STEPHEN AROCHA

Web Developer | IT Support

+916-392-6198 | arochacarlstephen@gmail.com | 12493, Aquino St. Mayondon | Portfolio: <https://castar.netlify.app>

SUMMARY

IT graduate (BSIT) with hands-on experience in web development, system deployment, and troubleshooting. Skilled in front-end and full-stack development, software configuration, and workflow automation, with experience coordinating directly with clients and stakeholders. Adaptable and detail-oriented, seeking opportunities in web development or IT support roles.

KEY SKILLS

Web Development: JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, PHP, Python

Databases & Tools: PostgreSQL, MongoDB, Prisma ORM, Docker, Git, GitHub, cPanel

Operating Systems: Linux (Linux Mint — daily driver; Arch Linux), Windows

Automation & AI Tools: FastAPI, Supabase, Groq API, n8n, Telegram Bot API, Google Sheets Automation, Dokploy, Cloudflare Tunnel

Technical Support: Software troubleshooting, UI/UX debugging, system configuration, deployment support

Communication: Basic to conversational English (currently improving through practice), clear written documentation, client requirement gathering

Professional Development: AI Agent Development — Function Calling, Agentic Loops, MCP Servers (via OpenCode)

WORK EXPERIENCE

TRipplesPH — Web Developer Intern (Hybrid) 2026

- Developed and deployed a corporate website using React, Tailwind CSS, and EmailJS; managed hosting via cPanel
- Diagnosed and resolved configuration issues during website deployment and launch
- Built an automated attendance tracking system using Telegram Bot, n8n, and Google Sheets
- Collaborated directly with company stakeholders to gather requirements and provide ongoing support

University Capstone Project — Full-Stack Web Developer 2025 - 2026

- Served as primary programmer for an LMS system with role-based access control
- Developed full-stack functionality (frontend, backend, database) and deployed using Docker
- Project completed, defended, and hardbound as part of degree requirements

Freelance Frontend Developer — Clinic Website (Private Client) 2025

- Developed and maintained the front-end of a clinic website for a private client (university professor)
- Implemented responsive UI components and debugged cross-browser display and layout issues
- Coordinated directly with the client to gather requirements and apply revisions

Self-Employed — Freelance Web Developer (Remote / Contract) 2024

- Built responsive portfolio websites using HTML, CSS, and JavaScript for 7 clients
 - Managed client communication, gathered requirements, and delivered revisions independently
-

EDUCATION

Laguna State Polytechnic University 2022 - 2026

Bachelor of Science in Information Technology (BSIT), Major in Web and Mobile Application Development (WMAD)

Award: Special Award for Exemplary Performance in Web and Mobile Application Development
